Author Index

Alvarado-Alvarez, R., García, U. and Aréchiga, H.
Electrotonic coupling between neurosecretory cells in the crayfish eyestalk (613) 43
Amir, S., see Bhatnagar, S. (613) 285
Anderson, D.K., see Kim-Lee, M.H. (613) 156
Arai, M., Arai, R., Sasamoto, K., Kani, K., Maeda, T., Deura, S. and Jacobowitz, D.M.
Appearance of calretinin-immunoreactive neurons in the upper layers of the rat superior colliculus after eye enucleation (613) 341
Arai, R., Jacobowitz, D.M. and Deura, S.
Ultrastructural localization of calretinin immunoreactivity in lobule V of the rat cerebellum (613) 300
Arai, R., see Arai, M. (613) 341
Araujo, D.M., see Lapchak, P.A. (613) 239
Aréchiga, H., see Alvarado-Alvarez, R. (613) 43
Atack, J.R., Rapoport, S.I. and Varley, C.L.
Characterization of inositol monophosphatase in human cerebrospinal fluid (613) 305

Beetsch, J.W. and Olson, J.E.
Taurine transport in rat astrocytes adapted to hyperosmotic conditions (613) 10
Ben-Ari, Y., see Otani, S. (613) 1
Berkenbosch, F., see Van Dam, A.-M. (613) 331
Berkovic, S.F., see Mendelsohn, F.A.O. (613) 221
Bernau, N.A., Dawson, S.D., Kane, L.A. and Pubols, L.M.
Changes in substance P and 5-HT binding in the spinal cord dorsal horn and lamina 10 after dorsolateral funiculus lesions (613) 106
Berne, R.M., see Sciotti, V.M. (613) 16
Bhatnagar, S., Meaney, M.J. and Amir, S.
The effects of prostaglandin E_2 injected into the paraventricular nucleus of the hypothalamus on brown adipose tissue thermogenesis in spontaneously hypertensive rats (613) 285
Birkle, D.L.
Regional and temporal variations in the accumulation of unesterified fatty acids and diacylglycerols in the rat brain during kainic acid induced limbic seizures (613) 115
Borowsky, B. and Kuhn, C.M.
GBR12909 stimulates hypothalamo-pituitary-adrenal activity by inhibition of uptake at hypothalamic dopamine neurons (613) 251
Bourne, R.C., see Csillag, A. (613) 96
Brouns, M., see Van Dam, A.-M. (613) 331

Campagnole-Santos, M.J., see Silva, L.C.S. (613) 321
Campos Jr., R.R., see Silva, L.C.S. (613) 321
Carrillo, A.J. and Dluzen, D.E.
Ablation of the hypothalamic arcuate-median eminence region reduces the concentration of vasoactive intestinal peptide in the anterior pituitary gland of male rats (613) 281
Caudle, R.M.
The demonstration of long latency potentials in the CA1 region of the rat hippocampal slice (613) 247
Costello, A., see Troncoso, J.C. (613) 313
Cote, N.K. and Harrington, M.E.
Histamine phase shifts the circadian clock in a manner similar to light (613) 149
Cox, R.F. and Waszczak, B.L.
Inhibition of substantia nigra dopamine cell firing by R(−)-*N*,*N*-propylnorapomorphine: electrophysiological and autoradiographic studies after regional inactivation of dopamine receptors by microinjection of *N*-ethoxycarbonyl-2-ethoxy-1,2-dihydroquinoline (613) 32
Crow, T. and Forrester, J.
Protein kinase inhibitors do not block the expression of established enhancement in identified *Hermissenda* B-photoreceptors (613) 61
Csillag, A., Stewart, M.G., Székely, A.D., Maglóczky, Z., Bourne, R.C. and Steele, R.J.
Quantitative autoradiographic demonstration of changes in binding to delta opioid, but not mu or kappa receptors, in chick forebrain 30 minutes after passive avoidance training (613) 96

Davies, J.A., see Rowley, H.L. (613) 49

Trippel, M., see Duysens, J. (613) 230
Troncoso, J.C., Costello, A., Watson Jr., A.L. and Johnson, G.V.W.
In vitro polymerization of oxidized tau into filaments (613) 313
Tsuboi, Y., Iwata, K., Muramatsu, H., Yagi, J., Inomata, Y. and Sumino, R.
Response properties of primary somatosensory cortical neurons responsive to cold stimulation of the facial skin and oral mucous membrane (613) 193

Uchihori, Y. and Puro, D.G.
Glutamate as a neuron-to-glial signal for mitogenesis: role of glial *N*-methyl-D-aspartate receptors (613) 212

Van Dam, A.-M., Brouns, M., Man-A-Hing, W. and Berkenbosch, F.
Immunocytochemical detection of prostaglandin E_2 in microvasculature and in neurons of rat brain after administration of bacterial endotoxin (613) 331
Van Oers, H., see Oitzl, M.S. (613) 160
Van Wylen, D.G.L., see Sciotti, V.M. (613) 16
Varley, C.L., see Atack, J.R. (613) 305

Wagner, U., Segura-Torres, P., Weiler, T. and Huston, J.P.
The tuberomammillary nucleus region as a reinforcement inhibiting substrate: facilitation of ipsihypothalamic self-stimulation by unilateral ibotenic acid lesions (613) 269
Waszczak, B.L., see Cox, R.F. (613) 32
Watson Jr., A.L., see Troncoso, J.C. (613) 313
Weiler, T., see Wagner, U. (613) 269
Weller, M., Finiels-Marlier, F. and Paul, S.M.
NMDA receptor-mediated glutamate toxicity of cultured cerebellar, cortical and mesencephalic neurons: neuroprotective properties of amantadine and memantine (613) 143
Wolf, M.E. and Jeziorski, M.
Coadministration of MK-801 with amphetamine, cocaine or morphine prevents rather than transiently masks the development of behavioral sensitization (613) 291
Wu, M., see Jen, P.H.-S. (613) 152
Wu, S.M., see Yang, X.-L. (613) 275
Wurtman, R.J., see Kischka, U. (613) 288

Yagi, J., see Tsuboi, Y. (613) 193
Yang, X.-L. and Wu, S.M.
Synaptic transmission from rods to rod-dominated bipolar cells in the tiger salamander retina (613) 275
Yoneda, Y., Suzuki, T., Ogita, K., Katoh, T., Tanaka, H., Maruoka, Y. and Nakamura, M.
Excitatory amino acid receptor binding in hippocampus of gerbils with transient global brain ischemia (613) 21
Yoshioka, M., Matsumoto, M., Togashi, H., Smith, C.B. and Saito, H.
Opioid receptor regulation of 5-hydroxytryptamine release from the rat hippocampus measured by in vivo microdialysis (613) 74

Zhang, D.X. and Levy, W.B.
Bicuculline permits the induction of long-term depression by heterosynaptic, translaminar conditioning in the hippocampal dentate gyrus (613) 309

(contents continued)

Characterization of inositol monophosphatase in human cerebrospinal fluid
J.R. Atack, S.I. Rapoport and C.L. Varley (UK, USA) 305
Bicuculline permits the induction of long-term depression by heterosynaptic, translaminar conditioning in the hippocampal dentate gyrus
D.X. Zhang and W.B. Levy (USA) 309
In vitro polymerization of oxidized tau into filaments
J.C. Troncoso, A. Costello, A.L. Watson Jr. and G.V.W. Johnson (USA) 313
Elaboration of glial cell processes in the rat olfactory bulb associated with early learning
S. Matsutani and M. Leon (USA) 317
Cardiovascular effects produced by micro-injection of angiotensin-(1–7) on vasopressor and vasodepressor sites of the ventrolateral medulla
L.C.S. Silva, M.A.P. Fontes, M.J. Campagnole-Santos, M.C. Khosla, R.R. Campos Jr., P.G. Guertzenstein and R.A.S. Santos (Brazil, USA) 321
Inhibitory modulation of long-term potentiation via the 5-HT_{1A} receptor in slices of the rat hippocampal dentate gyrus
N. Sakai and C. Tanaka (Japan) 326
Immunocytochemical detection of prostaglandin E_2 in microvasculature and in neurons of rat brain after administration of bacterial endotoxin
A.-M. Van Dam, M. Brouns, W. Man-A-Hing and F. Berkenbosch (The Netherlands) 331
Acetylcholine output from the ischemic rat cerebral cortex: effects of adenosine agonists
J.W. Phillis, M. Smith-Barbour, L.M. Perkins and M.H. O'Regan (USA) 337
Appearance of calretinin-immunoreactive neurons in the upper layers of the rat superior colliculus after eye enucleation
M. Arai, R. Arai, K. Sasamoto, K. Kani, T. Maeda, S. Deura and D.M. Jacobowitz (Japan, USA) 341
Adenosine receptor antagonists potentiate dopamine receptor agonist-induced rotational behavior in 6-hydroxydopamine-lesioned rats
H. Jiang, V. Jackson-Lewis, U. Muthane, A. Dollison, M. Ferreira, A. Espinosa, B. Parsons and S. Przedborski (USA) 347
Differences in Fluorogold and wheat germ agglutinin–horseradish peroxidase labelling of bladder afferent neurons
M.N. Kruse, S.L. Erdman, G. Puri and W.C. De Groat (USA) 352
